

## Cabinet 760B / 1500B

The Austin Taylor 760B and 1500B cabinets are medium duty distribution cabinets manufactured in ferritic stainless steel.

The flush fitting door(s) are secured by a 3 point shoot bolt system. The concealed hinges are stainless steel weld-on type.

### Material

Ferritic stainless steel throughout.  
(3CR12 or approved equivalent).

Stainless steel fixings are used throughout.

### Roof

Pitched roof in 2mm thick material welded to body.

### Body

2mm thick material.

### Base

2mm thick material.

### Doors

Flush fitting doors with concealed weld-on hinges. 2mm thick ferritic stainless steel. Doors open through 120 degrees. Stays retains the doors at 90 degrees.

760B has single door, 1500B has double doors.

### Latches

Lowe & Fletcher latch operating a three point shoot bolt system.

### Door seals

Replaceable synthetic rubber car boot type seals are used throughout.

### Protection

IP43 minimum.

### Backboard

20mm Marine Ply backboard.

### Ventilation

Convection currents draw fresh air in through louvres at sides of cabinet forcing warm air out through concealed vents above the doors.

Side vents are protected by insect-proof mesh.

### Finish

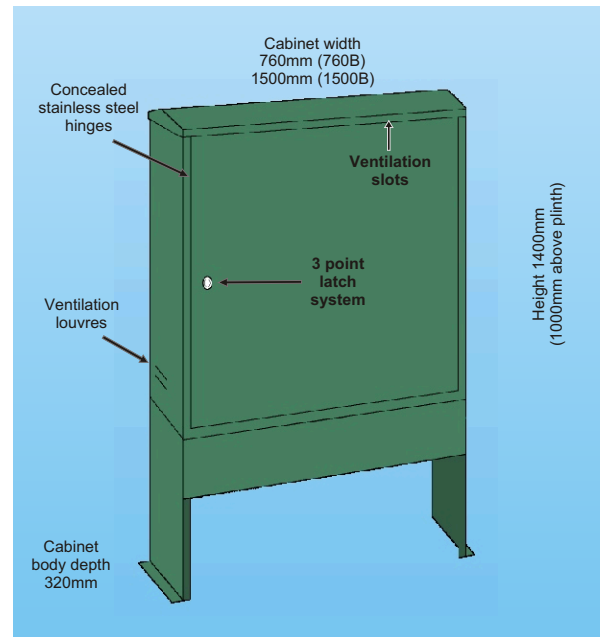

Pre-treatment by chemical etching followed by powder coating with polyester material in customers choice of colour (standard is green).

Multi-colour finishes and silk screened or embossed logos are available on request.

The gloss finish enables graffiti to be removed using mild solvents or mild abrasive compounds.

Damage can be touched up using brush or aerosol techniques.

Repainting is best achieved using two pack polyurethane compounds although gloss paint can be used.

760B Distribution Cabinet
